

At the Mountain Gate Vet, we are focused on trying to improve the health of all pets. The best way to do this is through prevention. We have therefore developed this community focused program to make it easy and cost effective to take the best possible care of your pet from day one.

One of the issues that we unfortunately see too much of in Australia are cases of preventable diseases such as parvovirus, which kills many young dogs. We want to increase the vaccination compliance within our local community to ensure that the cases we have seen already this year are not repeated.

We are all pet lovers and, as a result, want to try to promote excellent pet health within our community. We are always trying to think of new ways to make life easier for our patients and pet parents! With this in mind we have created a clinic website where you can ask questions and receive basic pet care advice.

If you have any questions please call our team at the Mountain Gate Vet on 03 9752 2900

Vaccination4Life™

A FEW FACTS TO KNOW

Vaccinating your pet is extremely important when it comes to maintaining their health.

Vaccinations build immunity and protect your pet from serious diseases, however the expense can become a deterrent. For this reason, we have developed the **Vaccination4Life** initiative to help save you money and simultaneously provide your pet with the care they need.

Our **Vaccination4Life** initiative is designed to enable pet owners to provide the best care for their pets and help save them money.

We aim for healthy pets and happy pet parents!

Vaccination4Life™

A lifetime pet vaccination plan where your pet receives annual boosters and health checks for life!

FAQs

Vaccination4Life is a lifetime vaccination plan where a one-off payment will provide your pet with annual boosters and annual health checks for the rest of their life. There are no hidden costs. You simply make a one-off payment and you can rest easy knowing your pet will be protected for the duration of their life.

Annual vaccinations and health checks for life!

We created **Vaccination4Life** because so many people stop vaccinating their pets mid way through their life. As a result, we still see many infections in puppies and kittens that could be prevented. Most of these diseases, like parvovirus, tragically kill many pets each year.

Vaccination4Life is a lifetime vaccination plan that saves you up to 75%.

This initiative also aims to improve the vaccination status of pets in our local area. Please help us promote **Vaccination4Life** to the community so that we can reduce the risk to pets.

Our aim is to improve the health and wellbeing of all small animals within our community!

Vaccinating your pet is vital to keeping them happy and healthy.

WHAT VACCINES ARE INCLUDED?

- C5 Vaccine for Dogs including; Canine Distemper Virus, Infectious Canine Hepatitis, Canine Parvovirus, Canine Parainfluenza and Bordetella Bronchiseptica (Canine Cough or otherwise known as Kennel Cough).
- F4 or F3 Vaccine for Cats at the Veterinarian's and Owner's discretion; Feline Rhinotracheitis Virus, Calicivirus, Panleucopenia Virus and Chlamydia Psittaci (not included in the F3 combination).

IS FIV OR LEPTO INCLUDED?

YES! FIV and Lepto are available as an Add-on.

WHO IS ELIGIBLE FOR VACCINATION4LIFE?

For this program to be financially beneficial we recommend all pets under 7 years of age are eligible for **Vaccination4Life**.

Terms and Conditions:

- **Vaccination4Life** can be purchased prior to vaccination.
- Payment cannot be made in installments and must be completed at time of vaccination.
- Pets must be microchipped as part of this program.
- Core Vaccines are included as per the program. For Cats this is the F3 or F4 vaccine and for Dogs this is the C5 vaccine, which includes Kennel Cough. Rabies vaccine is not included and nor is FIV & FeLV Vaccine.
- You may cancel your Vaccination4Life at any time. If you cancel after receiving any vaccinations covered by the membership, the clinic's full standard price for each vaccination received will be deducted from the total amount you have paid toward the plan. Any remaining balance will be refunded to you. If the value of the vaccinations received is equal to or greater than the amount you have paid, no refund will be payable.
- Vaccines will be given in the frequency as directed by the World Small Animal Veterinary Association Guidelines.
- If a pet is deemed too sick for a vaccination by the Veterinarian then a consultation fee may be charged and treatment may be prescribed. These will incur a separate cost. In such a case, the Vaccination will be postponed to a date following the pet's recovery.

Vaccinations and annual boosters protect your pet from painful and fatal diseases.
